PROFILE

I am an interactive narrative designer and frontend developer, creating playful interactivity in digitally static places. My work ranges from culturally sensitive storytelling to darkly satirical systems critique. I am looking for an innovative studio pushing the boundaries of what a website can be.

SKILLS

Design

Adobe CC, Figma, Unity, Reaper

Frontend

HTML/CSS, JavaScript, Mapbox GL JS, Git/GitHub

Deployment

Cloudflare Pages, Cloudflare R2, DNS config

Integrations

Google Forms/Sheets, Shopify, Magento, QuickBooks

Media

Photography, Video, Social Media (Meta)

Research

UX Research, User Testing, Info Architecture

EDUCATION

2023 to Present

Bachelor of Design (Digital Media)

RMIT University, Melbourne VIC

EXPERIENCE

2025, Freelance

Web Designer and Developer, Dick & Lindsay Wedding Website

Independent Client Project

- Custom frontend design, Cloudflare Pages deployment, GitHub CI/CD pipeline.
- Google Forms and Sheets wired as functional RSVP backend; DNS configuration end-to-end.

Jan 2023 to Present

Outdoor Retail Specialist, Bogong Equipment

Melbourne, VIC

- Customer service across footwear fitting, hiking packs, tents, and outdoor equipment.
- Maintained and updated product listings on the Wilderness Shop website.
- Web order fulfilment, packing, and customer troubleshooting.

Sep 2021 to Jan 2023

Retail and Marketing Assistant, K2 Basecamp

Brisbane, QLD

- Product listing updates, product photography, and video for marketing purposes.
- Wrote blog posts meeting SEO requirements; managed Meta social content.

2020 to 2021

Event Production Intern, Super Ordinary

Brisbane, QLD

- Coordinated event design across Brisbane Street Art Festival (BSAF) and Yonder Festival; led volunteer teams.

SELECTED PROJECTS

2025

Patchwork Cyborg / LifeWork, Interactive Series

RMIT University

- Patchwork Cyborg is a dystopian critique of real world concerns surrounding gig economy labour and AI workforce displacement, built on boardgame design logic.
- LifeWork extends this into a satirical corporate Slack-style interface, exploring anxieties around AI incorporation and precarious labour through systems-based design.

2025

Victorian Hiking Hub, UX Research and Frontend Development

RMIT University

- Research assignment investigating user needs and safety requirements for multi-day hiking in Victoria.
- Findings realised as a working prototype: multi-page resource with Mapbox GL JS integration, modular JavaScript architecture, and structured information design.

2025

Rabi Island Sports Tournament, Narrative Web Project

RMIT University

- Designed a live sports tournament website while capturing the cultural significance and history of the Banaban people.
- Reshaped a dominant narrative of dispossession and loss into one of strength and hope through sport, developed in collaboration with the author of Te Rii Ni Banaba.

RECOGNITION

Artist in Residence, Super Ordinary (2020 to 2021)

Studio residency space awarded for independent prototyping and creative development, Brisbane QLD.

HD Project Results, RMIT University (2023 to Present)

High Distinction marks across individual projects in interactive media, UX research, and systems design.
